Welcome Home
HGI Entry Systems will add an element of beauty which will be enjoyed by you, the homeowner, as well as every visitor who comes to your door. Lovely stained and painted finishes will highlight the myriad of decorative glass and unique hardware options. Your new front door will add charm, curb appeal and value to your home.

All HGI Steel Entry Systems are built using an all-steel construction 22 gauge door which is 33% heavier than competitors doors for security and durability. All HGI FiberStar Entry Doors are constructed with state-of-the-art technology. Laminated composite rails and high impact skins yield outstanding strength and durability.

The safety of your home and family is always first. HGI doors offer such features as an 18 gauge steel frame, deadbolt security plates, high security six pin locks, and laminated safety glass. Our steel edge door has over ten times the strength of a wood edge door to protect against forced entry.

HGI doors will insulate better than many walls with a R rating of 15.1. In layman's terms, our door is the best in the industry at keeping the inside in and the outside out. Windows and doors represent the biggest energy loss in most homes. Allow a beautiful HGI door to save you money.

HGI 101: How To Build A Door
You are four easy steps away from a new entranceway for your home.

1. Select a HOME GUARD® door style from the 26 unique families of glass and doors styles.
2. Choose from our twenty decorator colors or seven hand applied stain finishes for the inside and outside of your new entry door.
3. Select a knob, lever or handleset (even keyless) from the many styles and finishes offered to complement your door.
4. Add functionality with a peepsite, knocker, kickplate or mailslot. Add strength and beauty with our exclusive HGI Cladwrap or Timberframe door frame options.

Lifetime & Beyond Warranty
Like the Amish artisans that live and work near the Home Guard factory in Grabill, Indiana, we too craft each door one at a time. We are proud to offer a Lifetime & Beyond Limited Warranty on All Home Guard Entry Doors. Our exclusive transferable warranty gives peace-of-mind protection against warping, delamination and twisting of door slab for as long as you own the door...and beyond. Please see our Warranty Card for details.

Steel Door Features

HOME GUARD® IronWood Paintable Smooth Steel and Stainable Steel Doors are the ultimate in home security, beauty, long-term value and longevity. Increased energy savings, safety, home value, curb appeal, a rock-solid warranty - there are a multitude of reasons to upgrade today to a Home Guard door.

HOME GUARD’s Exclusive Timberframe® all-composite frame offers all the beauty of wood with none of the headaches. Completely maintenance and worry free, the Timberframe® will not warp, rot, mold or wick water and can be stained to match all HGI door stains. Timberframe® is an option on most HOME GUARD doors.

Magnetic Weatherstripping utilizes refrigerator technology to provide a durable, tight seal to provide year round comfort and energy efficiency.

All doors feature steel edge construction and are fully insulated with an inner core of environmentally friendly polyurethane foam and offer a superior R-factor of 15.1 for the ultimate in energy conservation. Our steel doors are wood-free and will not swell, split, twist, warp or rot like other steel doors with wood rails and lock block.

The door bottom weather-strip slides off and on for easy replacement and forms a weather-tight seal to the threshold. The result is a superior seal that keeps the inside in and the outside out.

Our exclusive steel “L” frame provides the next measure of security adding strength to your entrance. This crucial element is available on all HGI replacement doors and our adjustable strike plate makes installation easy on every door upgrade.

The unequaled security of steel - A wood edge steel door (left) cracked under the force of one hit of a 100 lb. test weight. Steel edge doors (right) did not force open after seven hits of a 100 lb. test weight.

HOME GUARD’s exclusive, patented Adjustable Hinge Plate System adjusts up or down and in or out for a tighter weatherseal against the elements and added energy savings.

Hardware finish matched Ball-Bearing Hinges are standard on all doors and offer the ultimate in smooth operation. Individual ball bearings ensure years of quiet, trouble-free use.

Duraframe Jambs are the standard wood frame on all HGI doors and are constructed using an Alaskan Cypress base which repels water preventing the wood from wicking and rotting.

HGI’s full 4” X 10” Composite Lock Block has more screw holding power than wood. Injection molded for uniform size, there is no distortion of the door skin typically found with wood lock blocks.

* Home Guard entry doors* are Energy Star approved and meet strict energy efficiency guidelines set by the EPA and US Department of Energy.

* Certain door styles do not qualify due to glass options.
Fiberglass Door Features

Fiberglass doors are available in both a smooth skin and a woodgrain texture. These doors can be painted in any of our twenty decorator colors or hand-stained in your choice of our seven ironwood stains. Special exterior rails are used on the perimeter to shut out moisture from all FiberStar doors. Patented Hydroshield technology ensures against warping, twisting, rotting or splitting...clearly setting our fiberglass doors apart from all the others. HGI’s exclusive Timberframe® all-composite frame offers all the beauty of wood with none of the headaches. Completely maintenance and worry free, the Timberframe® will not warp, rot, mold or wick water and can be stained to match all HGI door stains. Timberframe® is an option on most HGI doors.

The door bottom weather-strip slides off and on for easy replacement and forms a weather-tight seal to the threshold. The result is a superior seal that keeps the inside in and the outside out. Ball-bearing hinges are standard on all doors and are available in four color choices. Individual ball bearings ensure years of quiet, trouble-free use and provide the ultimate in smooth operation.

Duraframe Jams are the standard wood frame on all HGI doors and are constructed using an Alaskan Cypress base which repels water preventing the wood from wicking and rotting.

Environmentally Sound Polyurethane Foam Core

While some other fiberglass door manufacturers still use HCFC-free foam, we are proud to offer a truly “green” door which is completely CFC-free in compliance with the U.S. environmental standards to prevent destruction to the Earth’s ozone layer. The advanced polyurethane core used in our doors also enhances the door’s soundproofing capabilities and provides insulation properties six times greater than wood.
These unique styles from our Mountain Lake® fiberglass entry door collection will offer beauty, energy efficiency and easy operation for decades to come. Mountain Lake offers all of the beauty of natural wood, with none of the headaches.

The Castile entry system is shown above in the mahogany grain. Other Mountain Lake doors pictured are available and shown in oak grain. See your HGI representative for complete details and options.

**Roundtop Entry Doors**

- 22 Gauge Steel
- Factory Steel Cap
- Replacement Frame or Timberframe® New Construction
- Beautiful renovations
- Wood grains to replace Wood doors
- Archtops are also available

HGI is proud to be one of a handful of manufacturers who have perfected the art of producing high quality roundtop and archtop entry doors. These beautiful and unique doors are made from 22 gauge steel and include a factory-installed steel cap. The HGI Roundtop door can be ordered as a replacement frame unit or as a Timeberframe new construction unit. Our roundtops make a perfect, energy saving replacement for antiquated wood doors. Available in 20 baked-on color options or 7 beautiful woodgrain hand-stained finishes, these doors exude charisma and rustic charm, while maintaining modern operation, longevity and energy efficiency.

HGI's Signature Door Series features a patented grain technology process that authentically replicates any natural surface. The door process begins by hand, selecting the most desirable wood pieces which are then used to build a real wood door. A silicone casting accurately picks up the finest details of the wood grain which are transferred to the door mold using our Nickel Vapor Deposition Technology. The resulting mold is utilized to produce the fiberglass skin of each Signature Series door. The result is a breathtaking reproduction with random grain depths and all the natural characteristics of natural wood, but free from the warping, bowing, delamination and moisture issues that plague real wood doors. Born from real wood but vastly improved upon by state-of-the-art technology. The best of both worlds: HGI Signature Series Doors.

Savannah Patio Door Systems
Savannah Patio Doors are constructed to allow for one operational door hinged off of one fixed door panel. All units include a high quality screen for ventilation. The Savannah has been downsized slightly for easy replacement of standard size sliding doors or it can now be ordered to replace full-size 6' door units. All Savannah units are constructed using our heavy 22 gauge door and carry the exclusive Lifetime & Beyond Warranty. Savannah Patio Doors are available in woodgrain steel only.

Savannah Patio Doors are available in ANY full view glass style!

Blinds
Blinds built right in-between the clear insulated glass let you control light and privacy with ease while forever eliminating dust and damage. Perfect for entry doors, sidelites and Savannah patio doors, where decorative glass is not required.

*Available in manual tilt/raise & lower configuration.

** The Standard Size Savannah (downsized unit) Available in Paintable Stainable Steel Only
SS: Signature Series  C=Cherry, O=Oak, M=Mahogany
French Doors

Double doors, or “French Doors” as they are called, offer the opportunity for full access to your home or business. Very helpful for the occasional furniture move and a wonderful way to bring in lots of light or decorative glass accents. Double doors are available with hardware on the primary active door or both the active and secondary door as an option. Double doors are equipped with a state of the art astragal that has a weather close out that travels up and down with the internal head and foot bolts. For a classic look consider a HGI french door set available in all door styles, color and stain options. All door styles are available as French/Double Doors.

Easy to operate bolts that secure the secondary door top and bottom

Close out seal travels with slide bolts to ensure a good seal without the usual wear and tear.
PERSPECTIVES
Textured Doorglass
Views and textures from around the world led to this diverse collection of privacy glass styles for your entry door.

Cumulus
Whether soft wisps of clouds or a 30,000-foot view of mountainous terrain, Cumulus takes a view from afar and brings it down to earth in your entryway door. Cumulus glass offers a high privacy level as well.

Privacy Scale: 8

Linen
Reminiscent of a soft linen shirt or an elegantly embroidered linen tablecloth, Linen’s lightly etched glass and woven pattern complement casual or formal entryway designs. The translucent white glass and soft moire of Linen’s threads give it a high privacy level.

Privacy Scale: 9

Vapor
Finding inspiration in the majestic Northern Lights, Vapor glass creates an ethereal play of light and shadow, providing a medium level of privacy for your entryway.

Privacy Scale: 6
Trends come and go. Good design lasts. As do good memories of homes you grew up in and architectural styles you’ve admired. HGI’s Retro Collection celebrates the best of your design history. Architectural style is what gives a home character. The charm of bungalows. The geometric patterns of mid-century minimalism. Because you’re inspired by your home’s architecture or the vision of the one you’re building, our Retro Collection is for you. It’s the finishing touch for the discerning homeowner who appreciates a touch of timeless design and bold color strokes.

Available Retro Colors

BLUE BAYOU  LIME  ORANGE KRATE  CRABAPPLE  SOUR GRAPE

Note: RETRO door require the use of Timerframe (refer to page 27). Matching Clapwrap® not available for Retro Colors.

All Retro Series Doors are shown as 36 x 80. Also available in 34 x 80 and 36 x 84 however the appearance will be slightly altered due to the glass placement / spacing.
American Home Series

To let the sun shine through, choose clear glass for these traditional door styles.

For privacy, many American Home style doors may be available as a Privacy Lite (Textured Rainglass or Micro-Granite glass). Please contact your HGI Inside Sales Representative for availability and pricing.

Most HOME GUARD® American Home Series™ Doors with glass are provided with external high performance grids. All glass units are tempered safety glass with warm edge spacer systems. All glass frames are high performance thermal composite material guaranteed not to crack or warp.

X - Internal Grids Only
* Also available with internal grids (Doors: pages 20-24, Sidelites pages 32-33 in price book), white only.

Welded Aluminum Storm Doors

Home Guard Industries has been making doors & windows for over three decades. Quality has always been our first priority and the founding family still operates the company today. Our welded aluminum storm doors combine all the features of the best doors with the craftsmanship that is found in our small town Amish community. All HGI storm doors carry our exclusive lifetime warranty and will serve and beautify for as long as you own your home.

Features

Tempered Safety Glass
Heat-tempered safety glass ensures the safety of all family members and provides a clear weather shield that is three times stronger than regular glass.

Non-Glare Fiberglass Screen
HGI's fiberglass screen won't dent or puncture like an aluminum screen and offers a clean, non-glare view.

Choice of Hardware
Choose from our Albany in black or white, the Brookfield in stainless steel finish or our full Motion Lever lock in three metallic finishes.

Arc-Welded Corners
HGI's welded corners provide the strongest door available. In fact, the corner is the strongest point on the door. Storm doors that are screwed together loosen, rattle & sag overtime.

Unique Pocket Hinge
Our nested hinge provides strength where it is needed most. As the frame of the door centers the weight, the hinges are not being pulled from the door during operation like competition doors. Our hinges are self-lubricating and maintenance-free.

1 3/4" Thick .062" Heavy Gauge Aluminum
Our premium aluminum is dent resistant and truly long lasting to provide years of beauty and performance.

Cove Molded Frame
Our unique cove molded frame profiles offer beauty and style to your front door.
Hardware and Color Options

Standard - Albany Lift

- Black
- White

Mortise lock and deadbolt

- Bright Brass
- Oil Rubbed Bronze
- Satin Nickel

Brookfield lock and keyed deadbolt

- Black
- White
- Oil Rubbed Bronze
- Bright Brass
- Satin Nickel
- Antique Brass

The HGI exclusive Pro-Match color system ensures that your powder coated storm door can match HGI entry doors, vinyl windows and sliding patio doors.

Robotic Welded Corners

Our state-of-the-art robotic welder units ensure consistent quality, outstanding strength and HGI reliability in every door we build.

Due to the limitations of the printing process, printed colors will vary from the actual color. Please see your HGI representative for exact color samples.
CLADWRAP® is a factory-formed, pre-fit cladding system that provides a beautiful, protective coating for the door jamb and brickmold. Available in both coordinating and complimentary colors, our unique cladding system offers:

- Jamb Protection
- Lasting Beauty
- Freedom from Maintenance
- Textured Finish

Available in 20 Quality Edge™ colors of vinyl clad aluminum. Please refer to page 24 for our complete color palette.

The HGI hinged sidelite units give homeowners an option to complement their entry with clear or decorative glass while allowing operation for full clearance in the opening. The sidelite portion of these door systems operates exactly like the less active side of a double door with an astragal which closes out the weather and secures into the opening with head and foot pins which engage into the top of the doorframe and threshold. Beautiful and functional...another HGI exclusive.

Available in 12" & 14" Fiberglass or Signature Fiberglass only. Jamb outer dimension width will be 7/8" less than standard door and sidelite combo. Wider trim may be necessary.

Home Guard® is proud to offer TimberFrame® Jams and Brickmolds. These beautiful, hand-stained jams and brickmolds are the perfect compliment to the Ironwood® collection of Stained Steel Entry Doors as well as the Village Wood and Mountain Lake Fiberglass collections.

TimberFrame® jams and brickmold are stained to match Ironwood® doors and all are protected with a GuardCoat coating for years of lasting and durable beauty. Add the look and beauty of wood to your home’s entrance with the added strength and security of steel... but with none of the headaches.

The Burglar Guard is an innovative HGI exclusive feature that transforms a standard wood door jamb into a high security entryway. The Burglar Guard replaces the entire strike portion of the jamb with two walls of heavy steel for the ultimate protection against forced entry. The Burglar Guard also has two 2-way jamb adjusters to create the perfect margin between the door and the jamb which are accessible simply by removing the strike plates. The strike plates are also adjustable in and out to offer the correct point of insertion for both the deadbolt and the latch.

- 2-Way Jamb Adjuster
- Adjustable latch for both deadbolt & strike
- Allows for perfect weatherstrip compression
- Allows door to close and latch at exactly the right point
- Virtually eliminates kick-in
- Available on single doors only
Pro Match Color System
Color and Stain Options

With our exclusive HGI Pro Match Color System, you can have an exact match between Entry Doors, Windows, Patio Doors, Clad Wrap and eight Solid Storm Door colors.

Most Home Guard steel and fiberglass entry doors are available in both a smooth surface or with an optional embossed woodgrain for the ultimate wood look finish. All steel doors are zinc-galvanized, primed and painted with a baked-on, high quality exterior paint. Of course, all HGI doors come with our exclusive seven year finish warranty.

7 Year Finish Warranty
The wood grain embossed doors can also be stained with one of our seven hand-rubbed finishes and sealed with Home Guard’s exclusive GuardCoat. Choose from one of the beautiful stains below or combine solid color on one side and stain on the other. Whichever you choose, your finish is backed by our exclusive 7 Year Finish Warranty.

Colors shown are reproduced by the lithographic process and may vary from actual colors.
Baldwin is about creating a signature look that seamlessly blends hardware with the personality of its owner. Backed by an industry leading limited 25-year finish warranty. Leave a lasting impression with Baldwin.

SOLID CONSTRUCTION. FEEL THE DIFFERENCE.

Premium Sliding Patio Doors

Whether to the backyard or the pool, an Innovations Premium Sliding Patio Door allows you to connect to your surroundings. Available in standard and custom sizes, the Innovations Sliding Patio Door features many unique options to deliver the ultimate in operation and performance.

1. Uncompromised style
2. Traditional interior millwork panel design
3. Contemporary styled Multi-Point handle

5. Three premium wood-grain interiors
6. Select hardware finish options
7. Unsurpassed performance
8. Innergery Composite Ball Bearing Roller System
9. Metal reinforced panels
10. Triple weather-stripping minimizes air infiltration
11. High performance sill eliminates water penetration
12. Heavy duty extruded screen with spring loaded guides

AAMA DP-55
Specialty Hardware Options

Home Guard® offers a number of hardware choices to add the finishing touches of beauty and functionality to your door. Optional door knockers, mail and magazine slots, kickplates and spring hinges are available for added security, utility and beauty. See your Home Guard® representative for a full selection of options and available finishes.

Freedom Aluminum Petdoor

Pets crave freedom. This door gives your pet all the freedom he needs. This solid aluminum frame installs easily and the soft, transparent single flap provides a tight weather seal. The Freedom Aluminum door includes a locking panel that gives you the power to control when your pets can use the door.

HGI Door Viewer

Answer your door. Anywhere. Anytime. See, and speak to, whoever’s at your door, from anywhere, using your smartphone. Take a look and see who’s there with live video and engage in two-way communication using the free Yale look app. View a timeline history with photos to see all of the activity from your front door.

Features:
- Two-Way Communication
- Stores Months Worth of Activity
- Motion Detection/Activation
- Rechargeable Battery Pack
- Android/iPhone Compatible
- Free App - No Monthly Fees
OLD WORLD CRAFTSMANSHIP MEETS MODERN TECHNOLOGY

HOME GUARD Industries’ modern, 170,000 sq. ft. manufacturing facility is located on 22 acres right in the heart of the small community of Grabill, Indiana. Grabill is a quaint town of 900 residents, supported by antique and custom cabinet shops. The surrounding area has been farmed by generations of Amish families, well known for their detail and craftsmanship. The Grabill location provides HOME GUARD with the perfect atmosphere to produce custom window and door products with uncompromising efficiency, speed and quality.
